

Efficient Events

Fulfilment, Logistics & Product Services

Leading the Way

At CDL we know for a seamless event you need to be adaptable, detail-oriented, and skilled in communication, problem-solving, and negotiation to navigate these challenges and create memorable and outstanding events.

We've been doing this successfully for 25 years.

We pride ourselves on being a real partner.

There from the beginning, working seamlessly alongside on planning, scheduling, budgeting, innovation and product ideas.

With 25+ years of experience, in event fulfillment and logistics with sustainability at its core.

Dedicated Customer Service and Account Management teams for seamless execution responsive to your needs, ensuring your peace of mind.

Advanced cloud-based platform to manage entire product lifecycle, from sourcing, to storage and shipping and returns, uniquely branded to match your identity.

Our reach extends both domestically and internationally, with trusted shipping partners, ensuring that your products are in the best hands throughout their journey.

Current Challenges

Budget Management: allocation of resources efficiently and finding cost-effective solutions.

Time Constraints: meeting strict deadlines, coordinating multiple tasks simultaneously.

Supplier Coordination: dealing with multiple suppliers, to deliver on time.

Staffing and Volunteer Management: recruiting, training, and coordinating event staff.

Sustainability and Environmental Considerations: ensuring eco-friendly practices.

Hybrid Working Models: a more flexible approach to remote working.

Reduced Onsite Space: less onsite storage due to real estate strategies.

Our Solutions

Hitting sustainability targets
Working with you to **reduce the impact** of marketing and events activity

Supplier Management
We co-ordinate the production from multiple specialist factories, ensuring brand, quality sustainability and delivery, aligns for a **successful outcome**

Reverse Logistics
The **'forgotten task'**, but critical to get right. We collect and ensure a full inspection of the returns, avoiding any unwanted surprises for the next event!

Practical problem solving
Whether a last-minute event, shipping to a far-off destination or finding product solutions, we are here to help as **an extension of your team**

Product and service procurement
From great ideas to making them a reality, utilizing a proven framework and advising on best cost & **sustainable** solutions

Storage and warehousing
Safe in the knowledge we understand your world, we **fulfil, manage, plan, and deliver** when you need it!

Online ordering with inventory
Secure, cloud-based access, allows you to have **full visibility** of product and order with ease

Local support in regions
We have strategic partners placed in **regions around the world**, ever growing, as we meet the needs for sustainability, cost and timing.
